

gds 

Compliance is an obligation. Monitoring is your responsibility.

When delivery chains become more complex, you need more than just Excel lists.

complyhub

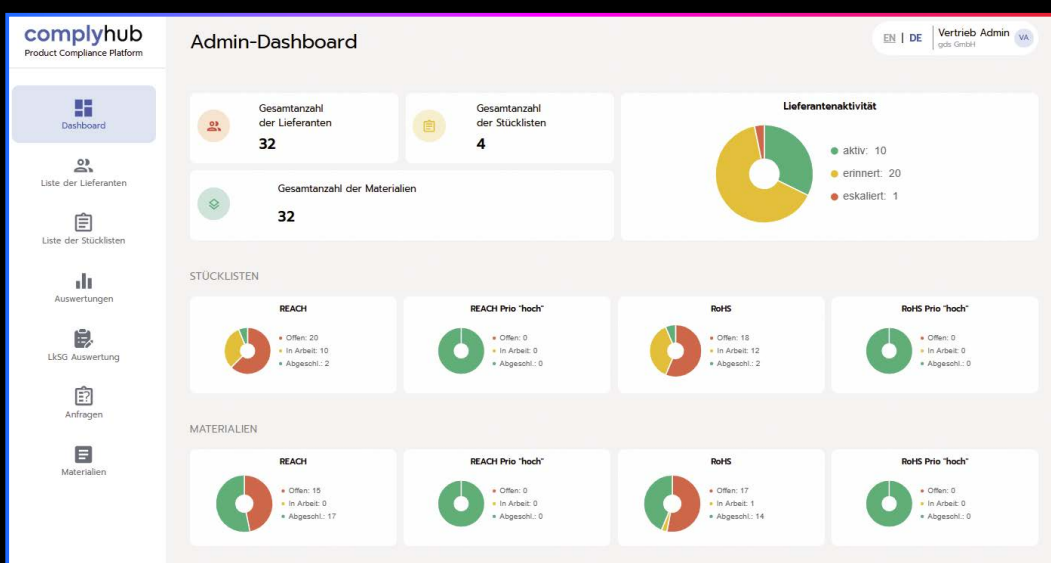

Digital. Clear. With proper reviewing.

Laws, forms, deadlines – how do you keep abreast of it all?

RoHS, REACH, CBAM, CSDDD: The regulatory requirements are growing – and are constantly changing. For many companies this means: constant coordination, a high level of manual intervention and increasing liability risks. complyhub gives you clarity. The platform digitalizes your compliance processes – in a clear, understandable, reliable manner.

What if product compliance simply work properly – instead of being a constant hindrance?

complyhub is a web-based SaaS solution which manages all the relevant materials, suppliers, parts lists and certification centrally. The platform structures queries, automates reminders and documents completely – to adhere to legal provisions and relieve your team in day-to-day work.

Dashboard

Easy to use – externally and internally

The user interface of complyhub is clearly structured and intuitive to operate – without a long process of initial training. This increases acceptance from internal teams and external suppliers alike. Queries are structured understandably, reactions are documented transparently. Thus, cooperation runs smoother and quicker.

How do you communicate with suppliers without starting from scratch each time?

Whether it's REACH queries or CSDDD questionnaires: complyhub organizes your supplier communication centrally. Status displays, response history and reminder cycles make for transparency in the response – without chaos, without follow-up calls.

The screenshot displays the complyhub Product Compliance Platform interface. The top header shows the material number 3RT2016-2FB41, Schutz 4kW / 9A 1S S00, and the supplier 9999421234: Siemens AG. The left sidebar contains navigation icons for Dashboard, Liste der Lieferanten, Liste der Stücklisten, Auswertungen, LkSG Auswertung, Anfragen, and Materialien. The main content area is titled 'Material Nr. 3RT2016-2FB41, Schutz 4kW / 9A 1S S00 für Lieferant 9999421234: Siemens AG'. It includes a checkbox for 'Material enthält SVHC-Kandidaten in deklarierungspflichtiger Menge' (checked), a dropdown for 'REACH Regelwerks-Version: Nr. 1907/2006 akt. 05/2023', a dropdown for 'Materialtyp: Erzeugnis', and a link to 'Anhang XVII der Reach-Verordnung'. Below this is a table titled 'SVHC-Kandidaten im Material:' with columns 'Stoff', 'CAS-Nummer', and 'EG-Nummer'. The table lists 'Blei' with CAS-Nummer 7439-92-1 and EG-Nummer 231-100-4, marked with a red 'X'. There is also a section for 'Weitere Informationen' with a text input field for 'SCIP-Datenbanknummer, falls verfügbar (optional)' and a section for 'Anhänge' with a 'Datei hochladen (z. B. Zertifikat):' button and a 'Datei auswählen' button. The bottom right shows the 'Bearbeitungsstatus: fertig' and buttons for 'Abbrechen' and 'Speichern'.

Stoff	CAS-Nummer	EG-Nummer
Blei	7439-92-1	231-100-4

REACH request

How do you maintain a clear overview in audits – instead of searching hectically?

complyhub archives certification in a way which allows proper reviewing, and processes data in a structured manner. That way, in case of internal inspections or audits by the authorities, you access all the information directly. Unlike many other tools, complyhub not only registers material data, but also documents regulatory requirements, such as the Corporate Sustainability Due Diligence Directive (CSDDD) – in a structured, verifiable and consistent manner.

Overview suppliers

How much of this can be automated?

More than you think.

The platform identifies similar materials, automatically adds SCIP numbers, and can extract supplier data which is already available, from PDFs or websites. Material data can be transferred to other datasets – and thus reduce workloads permanently.

Supplier information

Today's obligations are
tomorrow's competitive edge.

complyhub reduces workload, minimizes risks and creates the basis for
future-proof decisions. For more efficiency and genuine legal security.

What does complyhub provide specifically?

- Central management of all compliance-related data
- Automated supplier queries and reminders
- Conformity assurance for RoHS, REACH, CSDDD, CBAM and many more
- Structured registering of all non-material-related requirements (e.g. CSDDD)
- Scalable platform - regardless of the sector, company size or supply chain
- Upgradable for new legal provisions and sector-specific regulations
- Suitable for integration into ERP and PLM systems
- Modular and future-proof
- GDPR-compliant, perfect for audits, with the highest security standards
- Ideally prepared for the digital product pass (DPP)

Clear added value for your company

- ✓ **Risk minimization**
Early detection of gaps, reduces liability risks
- ✓ **Cost efficiency**
Fewer manual interventions, more focus on the essential
- ✓ **Flexibility**
Suitable to be adapted to any sector and any supply chain
- ✓ **Sustainability**
Suitable for upgrade for new requirements and prepared for the digital product pass (DPP)

gds – technical documentation with a future

With over **25 years of experience**, gds delivers solutions that truly fit. With software, services and genuine customer proximity, we make for structured, efficient and future-proof information. Whether it be **docuglobe and XR, easybrowse, complyhub or translation services, CE marking and content management** – our modular range provides support throughout the entire product life cycle. Our solutions adapt to your processes – not the other way around.

As a subsidiary of technotrans SE – an international technology concern – gds is member of a powerful network and higher-profile provider in technical communication. Our solutions optimize processes, create synergies, and set new modern information standards.

Michael Finger, CEO of technotrans SE, puts it best:

“gds is a firmly embedded part of the technotrans Group – even though technical documentation isn’t part of our traditional core business. That’s precisely what makes it so valuable to us: gds brings specialized knowledge in a field that’s becoming increasingly vital across industries [...]. For us, it’s clear: gds is a future-ready company with a strong identity – and a powerful asset within the technotrans Group.”

With gds, you make more of your technical documentation becomes more – today and in the future.

WE ARE ALWAYS THERE FOR YOU

Let’s talk about it. In a personal conversation, we will discuss all of the opportunities available for optimizing and increasing the efficiency of your technical documentation. We will also be happy to visit you.
